Chief School Performance & Accountability Officer

SUBJECT: **RECYCLING SERVICES CONTRACTS FOR SBBC**

The Environmental Conservation & Utility Management Department is pleased to inform everyone that *Thoroughbred Waste Services* and *World Waste Recycling* have been awarded the Recycling Services Contract for the Broward County School District. The new agreement became effective July 1, 2016.

*The District's collection schedule and services you currently have in place will remain the same.* To accommodate the two (2) different Recycling Haulers, the county was divided into two (2) collection areas, (North and South). Thoroughbred Waste Services will service the North Area, and World Waste Recycling will service the South Area. We used I-595 as a dividing landmark to distinguish the boundaries, with the only exception being the Kathleen C. Wright Administration Center, this location will be included in the South's collection area to balance the collection schedule. In the event the Haulers need to adjust or change the collection schedule, the school(s) affected will be properly communicated prior to the change.

As we transition, the new service providers will be removing your old recycling dumpsters and replacing them with a new one. The dumpsters will remain blue, properly marked as a "RECYCLING CONTAINER", and they will have the new company branding logo.

Please do not contact the service providers directly. As in the past, all questions and inquiries regarding the recycling services are to be communicated via the [emshelpdesk@browardschools.com](mailto:emshelpdesk@browardschools.com), and can also be contacted by calling (754) 321-4220.
